

Where we are helping

The Helambu region with the village Thimbu is situated north-east of Kathmandu and one of the entrance doors to the LangTang National Park. Around 6.000 people are living here. The voyage to Kathmandu takes meanwhile almost one day, as the streets are quite demolished as well. And – until now, nothing has been repaired yet! Within the region it is even very difficult to go by jeep. The best would be to take a horse. However, they don't have horses there any longer. What a pity!

Our local partners in Kathmandu and Thimbu, Nepal

Urkin Sherpa

Lhakpa Lama Sherpa

Urkin and Lhakpa are putting many of their private and business interests aside, just to help Thimbu and the whole Helambu region! They are our most important partners that we are trusting to 100%. Without them, our projects that we are supporting from Switzerland, would be practically impossible as we (Bianca-Maria) can only go to Nepal (on own expenses) once a year.
